ACCORDS Highlights - Fellowship Edition: Building Impactful Health Services Research Careers

Beginning with the End in Mind: An Iterative Prototyping of a Cancer Rehabilitation and Referral Process in Primary Care

Objectives:

- Describe identified core components of a cancer rehabilitation and exercise program referral pathway for primary care clinics.
- Explain how iterative prototyping and implementation science methods were used to inform the development of the referral pathway.
- Highlight key experiences and professional development gained during the ACCORDS T32 Primary Care Research Fellowship.

Emily Dunston, PhD, MS

Postdoctoral Research Fellow,
University of Colorado, Division of
Internal Medicine

Measuring Better-Appropriate Outcome Measures in Genetic Epilepsies

Objectives:

- Understand limitations of current outcome measures in genetic epilepsies.
- Describe the process of outcome measure development and discuss my current work adapting clinician and caregiver reported outcomes.
- Outline how the SCORE fellowship has been instrumental in my journey as a young investigator

Megan Abbott, MD

Assistant Professor, Pediatric
Epilepsy, University of Colorado,
Department of Pediatrics, Division of
Neurology

Lunch is provided for the first 20 in-person attendees!
