Advances in Vaccine Communication and Delivery

David Higgins, MD, MPH

Assistant Professor, General
Academic Pediatrics, University of
Colorado School of Medicine

Sean O'Leary, MD, MPH

Professor, Pediatrics-Infectious
Diseases, Investigator, University of
Colorado School of Medicine

Join us to learn from two ACCORDS Investigators conducting research on vaccine communication in primary care.

Understanding the Role of Non-Clinician Health Professionals in Vaccine Communication: Opportunities and Interventions

Objectives:

- Describe the current roles and untapped opportunities for nurses, medical assistants, and other non-clinician frontline staff in supporting effective vaccine communication in primary care settings.
- Identify strategies and pragmatic interventions to enable frontline health professionals to communicate confidently about vaccines and improve uptake in primary care settings

Recent Work in Vaccine Communication

Objectives:

- Describe the current state of research in clinician-parent vaccine communication in primary care settings
- Explain evidence based communication strategies clinicians can use in vaccine conversations

Lunch is provided for the first 30 in-person attendees!
