

## Community Engagement Forum Community Showcase

Connect with community and academic partners to explore opportunities for collaboration, share mutual research interests, and foster meaningful learning exchanges. The forum will kick off with a presentation on campus-wide community engagement efforts!

For those attending in person, the showcase will feature time to engage directly with various community groups. Showcase partners will share insights from their past collaborations and highlight exciting opportunities for future projects and partnerships.

Whether you're interested in discussing your work in community engagement, exploring research opportunities, or simply learning more, this event is for you. Join us to connect, learn, and collaborate!
